

YAS (France) opens a representative office in Lyon

Yusen Air & Sea Service (France) S.A.R.L. (President: Masafumi Soemoto) opened a representative office in Lyon and started operations on October 1, 2004.

YAS (France) has been endeavoring to expand sales based mostly in Paris. To further boost sales and volume of cargo handling, we determined to branch out to Lyon, where many of the French-based manufacturers have production bases. This brings about closer communication with customers and careful responses to the customer's requirements in this region as well as a prompt delivery to the customers residing in Lyon and southward. Taking up this opportunity, we aim at penetrating the South of France economy.
